Submissions & Review Process

- Total submissions: 16 abstracts
- Each abstract was assigned 2 reviewers
- Assignments were matched as closely as possible to reviewer expertise
- Reviewers were selected from different institutions to avoid conflicts of interest
- Review criteria focused on relevance to the track, originality, potential significance, and clarity
- Reviews were completed by February 3

Preliminary Program Structure

- 5 full papers planned as 10-minute presentations
- Remaining submissions considered for short “pitch” talks
- Final program is currently under development and will be consolidated based on the review outcomes
