

CompSys Working Group **on *Sustainable Computing*** compsys-wg-sustcomp@list.uva.nl

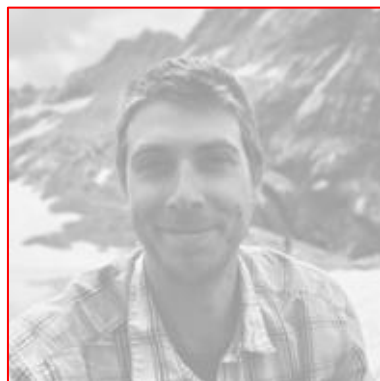

CompSys Plenary Day (Winter)

9 February 2026, SURF@Utrecht

Working Group Leads

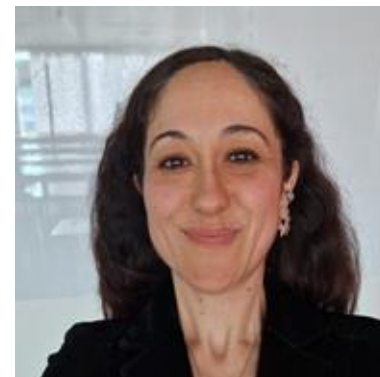

Ana Oprescu
(a.m.oprescu@uva.nl)

Benjamin Czaja
(benjamin.czaja@surf.nl)

Przemysław Pawełczak
(p.pawelczak@tudelft.nl)

Suzan Bayhan
(suzan.bayhan@utwente.nl)

[now at *Los Alamos National Laboratory*
High Performance Computing Engineer]

Core Research Goals

- Promote research on ICT sustainability in the Netherlands
- Bringing all (Dutch) scientists together that find ICT sustainability important
- Come together with new scientifically-proven means to ICT sustainability

Mission Statement/Goals for 2026

- **Continuing goals from 2025**
 - Inventory of sustainability research in the Netherlands
 - Who's who (inside and outside CompSys)
 - Input to the Manifesto update on sustainability topics
- **Participation in groups/events to promote sustainability**
 - coalitieduurzamedigitalisering.nl
 - ictopen.nl 2026

Activities/Timeline for 2026

- Continue working on *NWO Perspective 2026*
 - If Rejected: attempt at *NWO Perspective 2027*
- Involvement in *4TU.NIRICT PhD School on Emerging Computing Paradigms*
 - 17 March 2026, Utrecht
 - In collaboration with [ASCI.school](#)
- Work in different groups of [coalitieduurzamedigitalisering.nl](#)
