SIG FCSN
working groups

Paola Grosso, Ana-Lucia Varbanescu, Fernando Kuipers, Alexandru Iosup

What is a working group?

CompSys colleagues that work together to bring forward activities in the WG focus area.

- Develop (ASCI) courses
- Define roadmaps and SotA analysis (published on the CompSys website)
- Organize workshops
- Define research direction and translate them into joint funding efforts (eg relevant NWO calls)

What does a working group 'get'?

Visibility: on the CompSys website each WG has a page their mission/goals (*), sessions at the ICT.Open and CompSys conference

Support: community feedback and engagement, networking opportunities

Funding: trying to acquire funding from IPN to support activities/events

Provide calendar of relevant calls and 'meeting point' for CompSys researchers searching for partners:
- *setup page on the website and 'meeting point'*
- *revamp the use of the CompSys Slack.*
