Embedded AI
6G and VLC

Upcoming activities

What we consider doing this year

- This year: Inventory of “systems & AI” researchers in the Netherlands:
 - Who’s who (within CompSys and parties/researchers outside CompSys)
 - Who’s doing what?
- Get a small grant to organize activities
- Calendar of related events (e.g., ICT.OPEN, EWSN etc.)
- Meeting during events

We are open to suggestions!
